

EVERLAW SUMMIT

Dear _____,

I'm writing to request sponsorship to attend Everlaw Summit, an in-person educational, networking, and training conference on the future of ediscovery and litigation taking place in San Francisco, CA, Nov. 2-4, 2022.

Everlaw Summit is bringing together a stellar lineup of legal industry experts for three days of collaboration devoted to:

- Embracing transformational approaches to the business of law and finding new avenues to success,
- Learning new strategies for navigating exploding amounts of data, and
- Connecting with peers on the front-lines of legal transformation.

With a combination of workshops, panels, and keynote presentations, Everlaw Summit will feature legal luminaries and thought leaders, including Pulitzer Prize winner John Carreyrou, in conversation with Reed Kathrein, the Hagens Berman partner who led the civil litigation lawsuit against Theranos.

Everlaw Summit will be an incredible opportunity to learn about the latest developments in ediscovery and the rapidly evolving legal landscape. I will be able to meet and connect with legal professionals to share best practices and new strategies. I will also be able to acquire hands-on Everlaw training on predictive coding, passive machine learning, project administration, and more. I believe that my participation at Everlaw Summit will enable us to stay ahead of the curve and better serve our clients.

The registration fee is \$499 (or \$299 as an early bird discount if I register before the 6th of September) and includes access to all the workshops, presentations, and networking sessions.

This investment will allow me to support our team with new skills, a larger network, and more innovative strategies. In addition, I can provide a report of my key takeaways and recommended actions for our team to ensure we get the full value of Everlaw Summit. Please let me know if you have any questions. I look forward to your response.

Sincerely,
